eLearning Library

COURSES

Full Length (30-60 minutes)

Adopting Inclusive Behaviors at Work

Learn to foster an inclusive workplace environment by understanding and implementing behaviors that support diversity and inclusion. This course covers strategies to recognize and combat bias, promote equity, and create a welcoming atmosphere for all employees.

Coaching Skills: Fundamental Coaching Skills

Explore the essential skills needed for effective coaching. This course provides a foundation in active listening, powerful questioning, and goal-setting techniques to help others achieve their potential and improve performance.

Coaching Skills: Getting Flow

Discover the concept of 'flow' in coaching and how to facilitate this state in your employees. This course teaches techniques to help individuals achieve optimal performance and engagement in their tasks.

Coaching Skills: Informal Coaching

Learn the art of informal coaching and how to integrate coaching conversations into everyday interactions. This course highlights the importance of spontaneous coaching opportunities and provides practical tips for making the most of these moments.

Coaching Skills: Introduction

Get an overview of coaching principles and practices. This introductory course covers the basics of coaching, including the role of the coach, coaching models, and key competencies required for effective coaching.

Coaching Skills: Inverted U Theory

Understand the Inverted U Theory and its application in coaching. This course explains the relationship between arousal and performance, helping coaches to optimize the stress levels of their employees for peak performance.

Coaching Skills: More Coaching Methods

Expand your coaching toolkit with a variety of advanced coaching methods. This course covers different techniques and approaches to address diverse coaching needs and situations.

Communicating Interpersonally

Enhance your interpersonal communication skills with this comprehensive course. Learn to effectively exchange information, express yourself clearly, and build stronger relationships through better communication practices.

Communication Series - Writing Effective Emails

Master the art of writing clear, concise, and impactful emails. This course offers practical tips and techniques to improve your email communication, ensuring your messages are understood and achieve their intended purpose.

Communication: Active Listening

Develop your active listening skills to become a better communicator. This course covers techniques for truly hearing and understanding others, fostering more meaningful and productive conversations.

Communication: Communicate to Lead

Learn how to communicate effectively as a leader. This course focuses on the communication skills needed to inspire, motivate, and guide your team towards achieving organizational goals.

Communication: Communicating Across Cultures

Navigate the complexities of cross-cultural communication with this course. Understand cultural differences, avoid misunderstandings, and communicate more effectively with colleagues and clients from diverse backgrounds.

Communication: Negotiations

Gain essential negotiation skills to achieve successful outcomes. This course covers negotiation strategies, tactics, and the psychology behind effective negotiations, helping you to reach agreements that benefit all parties involved.

Communication: Storytelling

Discover the power of storytelling in communication. This course teaches how to craft and deliver compelling stories that engage, inspire, and persuade your audience.

Communication: The Importance of Listening

Understand why listening is a critical component of effective communication. This course highlights the benefits of active listening and provides techniques to improve your listening skills in various contexts.

Conflict: Conflict Resolution

Learn strategies for resolving conflicts in the workplace. This course covers conflict resolution techniques, including mediation and negotiation, to help you address and manage conflicts constructively.

Conflict: How to Have Difficult Conversations

Prepare for and conduct difficult conversations with confidence. This course offers practical guidance on handling sensitive topics, managing emotions, and achieving positive outcomes from challenging discussions.

Conflict: Managing Conflict with a Coworker

Develop skills to manage conflicts with coworkers effectively. This course provides strategies for addressing interpersonal issues, improving communication, and fostering a collaborative work environment.

Conflict: Managing Conflict with Your Boss

Navigate conflicts with your supervisor constructively. This course offers tips and techniques for managing disagreements with your boss while maintaining a positive and productive working relationship.

Creating Employee Engagement

Learn how to boost employee engagement in your organization. This course covers strategies for creating a motivating work environment, recognizing achievements, and fostering a culture of engagement.

Critical Thinking

Enhance your critical thinking skills to make better decisions. This course covers techniques for analyzing information, evaluating arguments, and solving problems systematically and creatively.

Critical Thinking and Problem Solving

Combine critical thinking with problem-solving skills to tackle complex challenges. This course teaches methods for identifying issues, generating solutions, and implementing effective action plans.

Customer Service for Success

Deliver exceptional customer service with this comprehensive course. Learn techniques for understanding customer needs, handling complaints, and providing outstanding service to build customer loyalty.

Customer Service Success

Achieve customer service excellence by mastering essential skills. This course covers best practices for communication, problem resolution, and creating positive customer experiences.

DEI Series: Creating an Inclusive Workplace

Create a more inclusive workplace by understanding diversity, equity, and inclusion (DEI) principles. This course provides strategies for fostering an inclusive culture and addressing biases.

DEI Series: Unconscious Bias

Recognize and address unconscious biases in the workplace. This course explores the impact of biases on decision-making and offers practical tips for reducing their influence.

DEI Series: Valuing Diversity at Work

Appreciate the value of diversity in the workplace. This course highlights the benefits of a diverse workforce and provides strategies for promoting diversity and inclusion.

Developing Emotional Intelligence

Improve your emotional intelligence to enhance personal and professional relationships. This course covers self-awareness, self-regulation, empathy, and social skills.

Disability Management & Return to Work Program

Learn how to manage disabilities in the workplace and support employees returning to work. This course covers best practices for disability management and developing effective return-to-work programs.

Diversify Your Leadership Team

Understand the importance of diversity in leadership and how to achieve it. This course provides strategies for building a diverse

leadership team that reflects your organization's values and goals.

Effective One on Ones

Conduct effective one-on-one meetings with your team members. This course covers best practices for preparing, conducting, and following up on one-on-one meetings to foster better communication and development.

Effective Performance Reviews for Managers

Learn how to conduct effective performance reviews as a manager. This course provides tips for preparing, delivering feedback, and setting goals to support employee growth and development.

Effective Performance Reviews: Preparing for Your Review

Prepare effectively for your performance review. This course offers guidance on gathering evidence, reflecting on achievements, and setting goals for the future.

Employee Recognition

Discover the importance of employee recognition and how to implement it effectively. This course covers various recognition methods and their impact on employee motivation and engagement.

Having Difficult Conversations

Master the skills needed to handle difficult conversations with ease. This course offers practical advice for preparing, conducting, and resolving challenging discussions in a constructive manner.

Hiring & Firing: Employee Terminations

Learn the legal and ethical considerations for terminating employees. This course provides best practices for conducting terminations professionally and compassionately.

Hiring & Firing: Getting a Candidate to Say Yes

Improve your hiring success rate by learning how to get candidates to accept job offers. This course covers negotiation techniques and strategies for making your offers more attractive.

Hiring & Firing: How to Conduct an Initial Interview

Conduct effective initial interviews with potential hires. This course offers tips for preparing questions, assessing candidates, and creating a positive interview experience.

Hiring & Firing: How to Conduct Background Checks (CAN)

Understand the process of conducting background checks in Canada. This course covers legal considerations, best practices, and techniques for obtaining accurate and relevant information.

Hiring & Firing: How to Conduct Background Checks (US)

Learn how to conduct background checks in the United States. This course covers the legal requirements, best practices, and tools for obtaining comprehensive background information on candidates.

Hiring & Firing: How to Effectively Terminate an Employee (US)

Gain the skills to terminate employees effectively and legally in the US. This course provides guidance on conducting terminations with professionalism and respect, while adhering to legal requirements.

Hiring & Firing: Onboarding

Create a successful onboarding process for new hires. This course covers best practices for welcoming new employees, integrating them into

your organization, and setting them up for success.

How to Be an Ally

Learn how to be an effective ally in the workplace. This course covers strategies for supporting marginalized groups, promoting inclusivity, and taking action against discrimination and bias.

How to Effectively Terminate an Employee - CANADA

Understand the legal and procedural aspects of terminating an employee in Canada. This course provides best practices for handling terminations professionally and ethically.

How to Fix a Bad Attitude

Address and correct negative attitudes in the workplace. This course offers strategies for identifying the root causes of bad attitudes and implementing solutions to improve morale and productivity.

Immigration (Canada)

Navigate the complexities of immigration laws in Canada. This course provides an overview of immigration processes, regulations, and best practices for managing a diverse workforce.

Immigration (US)

Understand the US immigration system and its implications for employers. This course covers immigration laws, visa types, and strategies for supporting employees through the immigration process.

Improving Presentation Skills

Enhance your presentation skills to deliver impactful and engaging presentations. This course covers techniques for structuring your message, using visual aids, and presenting with confidence.

Lone Worker

Ensure the safety and well-being of lone workers. This course covers risk assessment, safety protocols, and best practices for supporting employees who work alone.

Management: Absence Management

Learn effective strategies for managing employee absences. This course covers legal considerations, absence policies, and techniques for minimizing the impact of absences on productivity.

Management: Creating a Healthy Workplace

Create a healthier workplace environment. This course provides strategies for promoting physical and mental well-being, reducing stress, and fostering a culture of health and wellness.

Management: Discrimination-Free Workplace (CAN)

Ensure a discrimination-free workplace in Canada. This course covers legal requirements, best practices, and strategies for preventing discrimination and promoting equality.

Management: Ethics & Code of Conduct

Understand the importance of ethics and a code of conduct in the workplace. This course provides guidance on developing and enforcing ethical standards and promoting a culture of integrity.

Management: Leading Internal Investigations

Learn how to lead internal investigations effectively. This course covers the process of conducting investigations, gathering evidence, and ensuring fairness and confidentiality.

Management: Leading Virtual Teams

Develop the skills to lead virtual teams successfully. This course covers best practices

for communication, collaboration, and managing remote team members.

Management: Re-Engaging with Team Members

Learn strategies for re-engaging disengaged team members. This course provides tips for identifying disengagement, fostering motivation, and rebuilding team morale.

Management: Stress Management

Discover techniques for managing stress in the workplace. This course covers strategies for reducing stress, improving resilience, and creating a supportive work environment.

Management: Wage and Hours Laws (CAN)

Understand wage and hour laws in Canada. This course covers legal requirements, compliance strategies, and best practices for managing employee compensation and working hours.

Management: Whistleblowing, Reporting and Retaliation

Learn about whistleblowing policies and procedures. This course covers the importance of reporting misconduct, protecting whistleblowers, and preventing retaliation.

Managing Conflict in Meetings

Develop skills to manage and resolve conflicts in meetings. This course offers strategies for addressing disagreements, facilitating productive discussions, and maintaining a positive meeting environment.

Managing Different Generations in The Workplace

Learn how to manage a multigenerational workforce effectively. This course covers the characteristics of different generations and provides strategies for fostering collaboration and understanding.

Managing for Accountability

Promote accountability within your team. This course covers techniques for setting clear expectations, monitoring performance, and holding team members accountable for their actions.

Managing Interns

Get the most out of your internship program. This course provides guidance on recruiting, training, and managing interns to ensure a valuable experience for both the interns and your organization.

Managing Remote Workforces

Learn how to manage remote teams effectively. This course covers best practices for communication, collaboration, and performance management in a remote work environment.

Managing the Grapevine

Understand and manage workplace gossip effectively. This course offers strategies for addressing rumors, promoting transparency, and maintaining a positive work environment.

Managing Your Manager

Learn how to manage up effectively. This course provides tips for understanding your manager's expectations, communicating effectively, and building a positive working relationship.

Meetings: Effective Team Meetings

Conduct effective team meetings that achieve results. This course covers best practices for planning, facilitating, and following up on team meetings to ensure they are productive and efficient.

Meetings: Running Effective Meetings

Learn how to run meetings that are productive and efficient. This course covers planning,

facilitation, and follow-up techniques to ensure your meetings achieve their objectives.

Microaggressions at Work

Recognize and address microaggressions in the workplace. This course provides strategies for identifying microaggressions, understanding their impact, and creating a more inclusive environment.

People Analytics

Leverage people analytics to improve HR decision-making. This course covers the basics of people analytics, including data collection, analysis, and the application of insights to enhance workforce management.

Performance Management: Giving and Receiving Feedback

Learn how to give and receive feedback effectively. This course provides techniques for delivering constructive feedback, receiving feedback gracefully, and using feedback for continuous improvement.

Performance Management: Performance Management Primer

Get an introduction to performance management. This course covers the fundamentals of setting goals, monitoring performance, and conducting evaluations to improve employee performance.

Performance Management: Progressive Discipline

Understand the process of progressive discipline. This course provides guidance on implementing disciplinary measures fairly and consistently to address performance issues and improve behavior.

Performance Reviews: Handling a Bad Performance Review

Learn how to handle a bad performance review constructively. This course offers strategies for responding to negative feedback, addressing performance issues, and creating a plan for improvement.

Performance Reviews: Self-Assessments

Conduct effective self-assessments for performance reviews. This course provides tips for reflecting on your performance, identifying strengths and weaknesses, and setting goals for development.

Preventing Workplace Harassment

Create a harassment-free workplace. This course covers the types of harassment, legal considerations, and best practices for preventing and addressing harassment in the workplace.

Privacy US HIPAA

Understand HIPAA regulations and their implications for privacy. This course covers the basics of HIPAA, including requirements for protecting personal health information and ensuring compliance.

Privacy: Part 1 - Why It Makes Good Business Sense

Understand the business case for privacy. This course covers the importance of protecting personal information and the benefits of implementing strong privacy practices.

Privacy: Part 2 - Summary of Privacy Laws in Canada

Get an overview of privacy laws in Canada. This course covers the key regulations, their implications for businesses, and strategies for ensuring compliance.

Privacy: Part 2 - Summary of Privacy Laws in US

Learn about privacy laws in the United States. This course provides an overview of key

regulations, their impact on businesses, and best practices for compliance.

Privacy: Part 3 - Your Responsibilities

Understand your responsibilities under privacy laws. This course covers the obligations of businesses and individuals in protecting personal information and ensuring privacy compliance.

Privacy: Part 4 - Dealing with a Breach

Learn how to respond to a privacy breach. This course covers the steps to take in the event of a breach, including notification, investigation, and remediation.

Privacy: Part 5 - What is Meaningful Consent

Understand the concept of meaningful consent in privacy. This course covers the requirements for obtaining valid consent and best practices for ensuring individuals understand how their information will be used.

Privacy: Part 6 - Guidance for Businesses Doing eMarketing

Get guidance on privacy considerations for eMarketing. This course covers the legal requirements and best practices for collecting and using personal information for marketing purposes.

Privacy: Part 7 - Passwords, Email & Faxes, Devices & Disposal

Learn best practices for managing passwords, email, faxes, devices, and disposal of information. This course covers strategies for protecting personal information in various contexts.

Privacy: Part 8 - Malicious Software

Learn about the risks of malicious software and how to protect against them. This course covers the types of malware, their impact, and best

practices for preventing and responding to malware attacks.

Privacy: Part 9 - Video Surveillance

Understand the privacy implications of video surveillance. This course covers the legal considerations and best practices for implementing and managing video surveillance systems.

Productivity: Adapting to Change

Learn how to adapt to change effectively. This course provides strategies for managing transitions, staying resilient, and maintaining productivity during times of change.

Productivity: Personal Effectiveness

Improve your personal effectiveness to achieve better results. This course covers techniques for managing time, setting goals, and staying focused on priorities.

Productivity: Productivity Primer

Get an introduction to productivity principles. This course covers the basics of time management, goal setting, and techniques for improving personal and team productivity.

Productivity: SMART Goals

Learn how to set SMART goals. This course covers the principles of Specific, Measurable, Achievable, Relevant, and Time-bound goals and how to apply them to achieve success.

Productivity: Time Management

Develop effective time management skills. This course provides strategies for prioritizing tasks, managing your schedule, and avoiding common time-wasting habits.

Project Analytics

Understand the role of analytics in project management. This course covers techniques for

collecting and analyzing project data to improve decision-making and project outcomes.

Running Effective Team Meetings

Conduct team meetings that achieve your goals. This course covers best practices for planning, facilitating, and following up on meetings to ensure they are productive and effective.

The Art of Managing Your Manager

Learn how to manage your manager effectively. This course provides tips for understanding their expectations, communicating effectively, and building a positive working relationship.

Violence and Aggression at Work

Address violence and aggression in the workplace. This course covers strategies for preventing and responding to violent or aggressive behavior to ensure a safe work environment.

Virtual Teamwork

Develop the skills for effective virtual teamwork. This course covers best practices for communication, collaboration, and managing remote team members in a virtual environment.

Wage and Hours Laws - USA

Understand wage and hour laws in the USA. This course covers the legal requirements, compliance strategies, and best practices for managing employee compensation and working hours.

What is Constructive Dismissal - Canada

Learn about constructive dismissal in Canada. This course covers the legal definition, examples, and steps to take if you believe you have been constructively dismissed.

Working From Home

Master the skills needed to work from home effectively. This course covers best practices for

staying productive, managing your time, and maintaining work-life balance while working remotely.

Working With Different Generations: Working with Baby Boomers

Learn how to work effectively with Baby Boomers. This course covers the characteristics, strengths, and communication preferences of Baby Boomers and strategies for collaborating with them.

Working With Different Generations: Working with Gen Z

Understand how to work with Gen Z employees. This course covers the characteristics, strengths, and communication preferences of Gen Z and strategies for collaborating with them.

Working With Different Generations: Working with Millennials

Develop skills to work effectively with Millennials. This course covers the characteristics, strengths, and communication preferences of Millennials and strategies for collaborating with them.

Writing Meeting Notes

Learn how to write effective meeting notes. This course covers best practices for capturing key points, decisions, and action items to ensure meetings are well-documented and follow-up actions are clear.
